

There's more than **1
way to make a good
impression with
rubber...**

The *Rubber Stamp* **Company**

Here at **The Rubber Stamp Company** we have a wealth of experience in a competitive field. We can offer a fast efficient service across the UK with quality products at an attractive price.

A perfect solution for creating the right impression

We have a vast range of stamps and inks available; we work with all the top UK brands, the latest styles and up-to-the-minute production technology to ensure we are offering the finest products available.

While we supply a number of pre-designed stock stamps, we specialise in stamps which are bespoke to your requirements, we can generate artwork or logos to order, or work from artwork supplied and advise you on the best way to make the right impression.

Whether you need 1 stamp to personalise your craft creations or 500 stamps for a promotion or loyalty scheme, whatever your requirements you are guaranteed a first-class service.

When you choose **The Rubber Stamp Company** you can be confident that you will receive the best advice and exceptional service - a one-stop shop for all of your stamp requirements.

If you know what you want but can't see it
give us a call and we'll find it for you.

If you have an idea but don't have a clue where to begin,
give us a call and we'll get you started.

Manufacturing Quality Stamps since 1890

A guide to choosing your stamp

This guide is designed to give you some things to consider, not give you all the answers.

There are so many variations when it comes to stamps that the options could run into pages and pages of confusing information, this guide simply gives you the information to know which questions to ask.

Which type of stamp?...

There are three main types of stamp, each with their own variations...

Traditional Stamps...

Traditional stamps are probably the most recognizable of stamps, their simple construction of a 'block and handle' make them one of the most versatile of stamps, you simply pick up the ink from an ink pad and then stamp.

Self-Inking Stamps...

Self-inking stamps are very popular, found in most offices. They come in a variety of styles, shapes and sizes. They are easy to use, easily refillable and give a crisp clean impression, impression after impression. Self-inkers are ideal for quality stamping on the go. Perfect for promotions, loyalty schemes, ultra violet security stamps, hand stamps, signatures stamps and verification stamps to name but a few.

Pre-Inked Stamps...

The Ultimate in stamping! Due to the way our pre-inked stamps are produced and the materials used, these stamps give superior impressions, whilst also boosting highest impression to cost ratio of any stamp available.

Which size and model do I need?...

This can often lead to confusion, particularly when the stamp is a text stamp. If you require a specific font size it is best to let us know the size and we'll select the right stamp to suit that font, whereas if you require the text to fit into a specific space, it is best to let us know the size of the stamp or the size of the space you wish to fill.

for example

Bob Jones
Director

Jacqueline Robinson
Assistant Vice President

Both stamps are required in a font size of 12. Bobs stamp fits on to a self-inking 10mm x 27mm stamp, however, Jacqueline's name and job description are longer than Bobs so although it's the same font size Jacqueline's stamp will need to be bigger.

If the stamp model was requested, an 18mm x 47mm stamp would come up different sizes.

Bob Jones
Director

Jacqueline Robinson
Assistant Vice President

Which type of ink?...

Choosing the right ink is very important. For a standard stamp stamping on paper is no problem, however, if you need to stamp on a different surface you may need a special ink. There are hundreds of inks available and are designed for these different purposes.

Examples...

- Normal Ink for use on absorbent surfaces such as paper
- Quick drying inks for use on non-absorbent surfaces such as glossy paper
- UV inks for use on both absorbent and non-absorbent surfaces
- Oil Based Inks
- Fabric Inks
- Crafts inks and powders including metallic inks.

Which colours can I get?...

Most stamps and stamp pads are available as standard in **black, blue, red, green or violet**, however, there are a huge range of colours available, we can even mix ink colours to suit your needs.

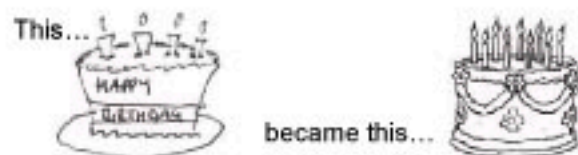

It is possible to have not only a variety of colours, but also a mixture of colour. There are specific size restrictions to avoid the inks bleeding into one another and there are different ways of producing these stamps, so some designs are possible, some aren't, if you like the idea, tell us what you want and we'll see if it's possible.

What if I'm no good at design?...

We have an experienced team who can produce or regenerate artwork. We can work in various formats including CDR, BITMAP, EP, JPEG, PDF and TIFF, although we can also work in more simple formats such as word or even a doodle on a piece of paper!

How will it look?...

If you're in any doubt as to how your stamp will look we can always put a proof together for you so you can see how your stamp impression will look before you give the go ahead. We can fax, email or post your proofs to you.

Still not sure?

Pre-Inked Stamps at a glance...

The Ultimate in stamping!

Due to the way pre-inked stamps are produced and the materials used, these stamps give superior impressions every time.

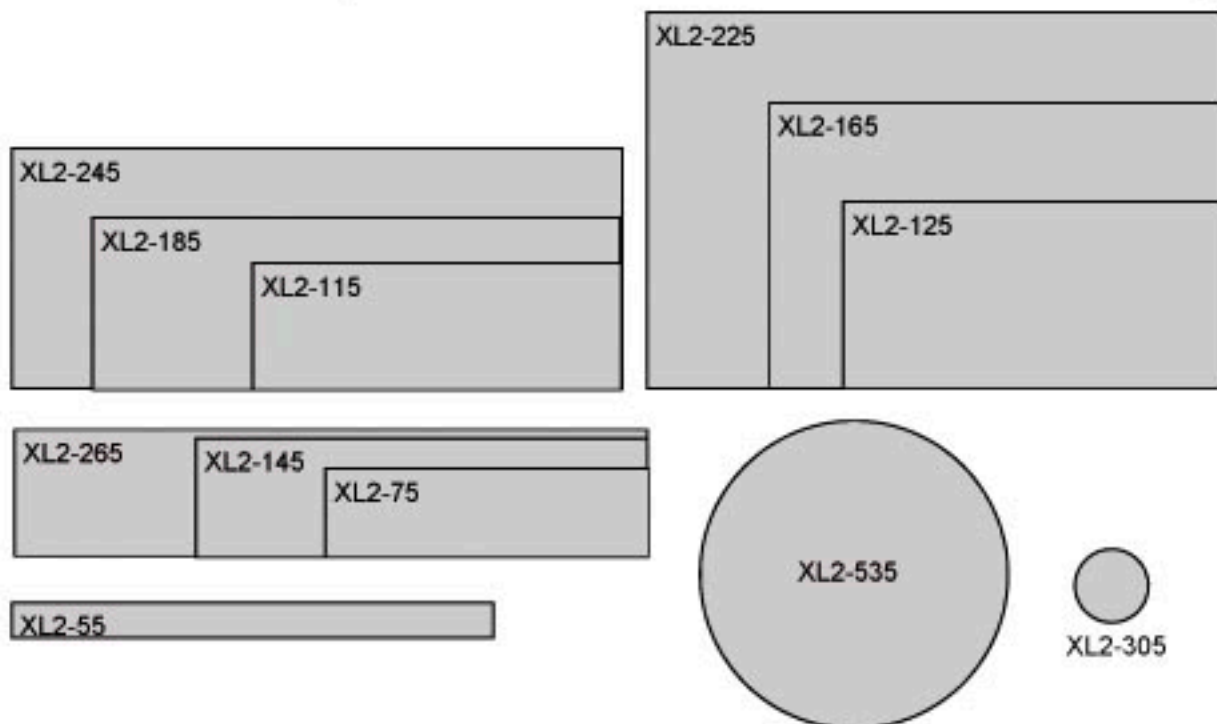

Whilst also boasting highest impression to cost ratio of any stamp available, pre-inked stamps print up 50,000 impressions before the need to re-ink.

Pre-inked stamps are the perfect option for a clean crisp impression every time, time after time

Mick Johnson & Partners

Mrs. T. Davies

Impressor

Pre-inked stamps give print-like quality impressions making them ideal for signatures, logos, names and addresses.

- The ink is contained in the printing material of the stamp itself, so no need for a separate stamp pad. Black, blue, red, green and violet ink colour is available. (please allow 2 days extra for delivery of green or violet ink)
- The high density ink gives a quality impression, but is not advisable for use on coated paper
- For stamps with designs, logos or signatures, please send original black & white artwork with your order
- Not available in dater models
- Ps1 ink is available to re-ink your pre-inked stamps

THINK GREEN!

Clearer Cleaner Greener

Refurbishing your old stamps not only has less impact on the environment, but also has less impact on your pocket too!

Whether or not you bought your stamp from us, provided your stamp is still in working order, we should still be able to refurbish it for you.

For further information contact us on

020 8655 1144

If your old stamp is beyond refurbishment why not **GO GREEN** for your new stamp

COLOP bases its responsibility for the environment on the following philosophy...

avoidance **OVER** reduction **OVER** recycling **OVER** disposal

- Through targeted measures - already introduced in the research and development domain - workflow processes are being optimised to avoid creating waste, where possible. Significant waste savings can be made by re-structuring the products and production processes.
- Any plastics waste generated is automatically collected, crushed and re-used in the production process at a rate of almost 100%.
- Any unavoidable waste resulting from these processes is either sold or disposed of by a certified waste disposal company.

Colop has also been optimising its energy use for several years, in addition to its optimal use of raw materials.

- The heat generated during the production process is recycled. Areas of the production and warehousing sites are heated using heat recovery.
- In this way, more than 100,000 litres of oil have been saved over the last few years and CO2 emissions have been reduced by 260 tonnes. (This could provide approx. 100 homes with electricity for a year.)
- COLOP has been optimising its production process for many years, creating which cause as little damage to the environment as possible.

trodaf And the Environment

Taking Responsibility

Trodaf have achieved ISO 14001 status. With their environmental systems and processes they have been recognised by ISO as an environmentally responsible organisation Trodat – Taking responsibility – ISO 14001.

With a unified approach Trodat have been leading the way for many years in environmental protection prior to achieving ISO 14001, continuously making improvements to its processes to ensure no harmful effects on the ecosystem around it. For many years Trodat have been implementing measures for better use of resources - the successful ISO 14001 certification confirms that Trodat fulfils worldwide demands with its environmental management system.

To further their credentials and to demonstrate their commitment to the environment Trodat recently launched the EcoPrinty range of self-inking stamps, made of 75% post-consumer recycled material. From January 2009, the entire Office Printy range of self-inking word stamps will undergo a metamorphosis into the Office EcoPrinty range. Trodat hopes this will have real environmental benefits with the use of post-consumer recycled plastics in the production of the EcoPrinty.

- View Trodat's environmental policy at www.trodaf.co.uk

Those who sell Trodat stamps are automatically supporting responsibly produced goods.

On request, you can of course also order the EcoPrinty for use as a custom stamp made of 75% post-consumer material, see below for available sizes. Further details of the full Trodat Printy range can be found on page 13.

Eco4911 - 38x12mm RRP £20.25

Eco4912 - 48x12mm RRP £24.75

Eco4913 - 58x28mm RRP £31.00

CLEAN RAW MATERIALS

- We do not use any substances like zinc, cadmium or lead
- Our suppliers are continuously screened for environmental and quality certification
- We do not use any PVC in the manufacture of our stamp components

ECONOMICAL USE OF ENERGY

- Heat recovered from production is used for heating buildings
- Injection moulding machines are cooled using fresh air
- 62% of electricity requirements come from renewable energies

RESPONSIBLE PRODUCTION

- About 80% of all production waste is re-used
- 100% recycling of mechanically unstressed parts
- Production rejects are less than 0.3%
- The whole production process does not produce any effluent

LESS CO₂

- 1000 tonnes saving on CO₂ emissions purely by reducing the use of fossil fuels, natural gas and electricity since the middle of 2001
- 260 metric tonnes additional saving on CO₂ by changing from fuel oil to natural gas

For further information on green products, stamp recycling and environmental policies contact us on

The perfect travel companion!

The Pocket Stamp's elegant oval casing encloses an inked pad and the text plate with your bespoke requirements.

As you remove the cover, the text plate moves automatically into the stamping position, once the impression is made you replace the cover and pop your stamp into your pocket, jacket, handbag or briefcase.

The Pocket Stamp is designed to give the right impression in more ways than one. Not only is it ideal for quick, easy, clean impressions, but its small, compact curved design looks smooth and professional.

Writing and Stamping in One!

The Stamp Writer has one unique feature: it is a beautiful and practical pen which completely conceals the fully-working self-inking stamp which lies inside.

From the same family as the Colop Pocket Stamp, the Stamp Writer is a clean, functional useful little gadget!

Available in a number of different colours and finishes, the Stamp Writer is strong, sturdy and durable.

The stamp pulls out of the pen, opens out and is then inked and ready to use. The pen is pleasant to write with and sits comfortably in the hand.

Here at the Rubber Stamp Company, we are well aware that when it comes to stamps there are so many variations that it's not always easy knowing which stamp is best for your requirements.

We are here to guide you through your purchase, to advise you and to recommend the best product for your needs. so don't panic if you're not sure where to start.

None of our systems are automated so all methods of ordering are more like an initial contact, they end up in the same place and are met by a human being. We use proofs and good old fashioned conversation to check and double check everything is correct before your order is confirmed.

If you are in any doubt, call us on

020 8655 1144

We're here to help

HOW TO PAY

Non-Account Holders...

All non-account holders must settle payments prior to any goods being dispatched.

As soon as your order is confirmed you will receive a pro-forma invoice, once payment is received, your goods will go into production and will be dispatched the following day.

For specialist items there may be a longer production period, this along with an estimated delivery time will be stated on your pro-forma invoice.

To set up an account contact us on

020 8655 1144

Account Holders...

All account holders will be invoiced at the end of each month.

Each invoice will state when the payment is due in accordance with your contract terms.

Payment Methods...

By Cheque...

All cheques should be made payable to The Rubber Stamp Company

By BACS...

Bank: HSBC Sort-code: 40-07-30 Account: 01496867

Please use your invoice number or company name as a reference.

By PayPal...

We are now able to accept PayPal payments.

If you choose to pay by PayPal your order will be confirmed and a pro-forma invoice will be sent to you with full payment instructions.

If you are in any doubt, call us on

020 8655 1144

We're here to help

There's more than 1 way to make a good impression with rubber...
